# CEILING MOUNTED WARMERS

Lamp body and switch holder are constructed from heavy gauge spun aluminum. Standard finishes are satin aluminum, brass, copper, plated chrome and powder coat (custom finishes are also available). All finished surfaces have a clear baked enamel topcoat that is easy to clean and also eliminates tarnishing and need to polish. All internal components including lamp socket and wiring are high temperature rated (200°C). Each shade style is available with all mounting types providing a solution for any warming application. **Note:** All mounting options can be track mounted. All mounting options can have switch. See below for how to order
